Presents

The Redwoods Gathering on Person Centered Practices

October 26-28th, 2020

Whether you live in the Pacific Coast region of the United States or anywhere in the world, please join us for a virtual Gathering. While we had to cancel the NorCal Gathering due to the pandemic, we have figured out a way to move forward.* Topics over three days will include self-determination, employment, cultural diversity, remote teaching and learning, HCBS implications for services and supports, and other topics in key cast presentations, breakout sessions and learning marketplace formats. Recorded sessions and resources (e.g., handouts, slides, articles, video links) from both the Portland and Redwoods Gatherings will be available to all registrants after the gathering. *This is the first, U.S. regional gathering presented by The Learning Community outside of the Portland Gathering.*

***When registration opens in mid to late September, non-refunded registrants for the cancelled NorCal Gathering will be provided with a code that entitles them to free admission.**
