

The California Gatherings

Resource Note

Putting Person Centered Practices to Work

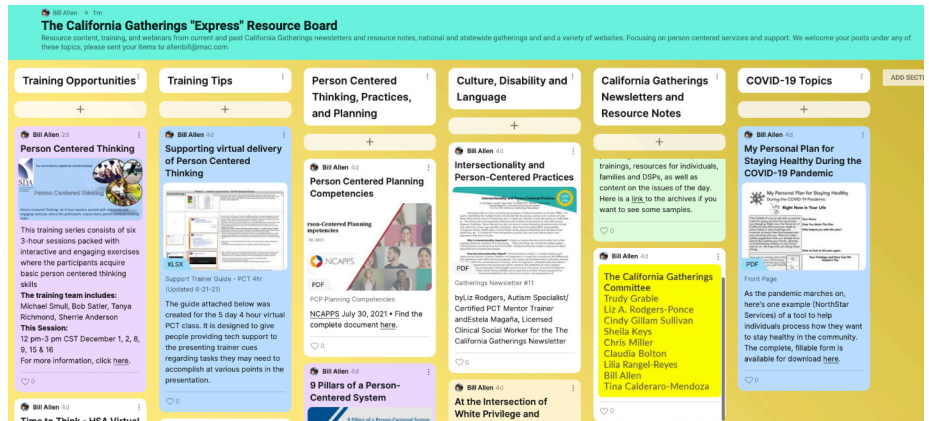

2021
August

“Person-centered planning is based on the fact people are able to grow, change, and realize personally valued goals. PCP focuses on the universally valued goal of living a good life as defined by the person. All activities focus on the person as a whole (not just their diagnosis or disability) and are informed by the person’s unique culture and identity.”
